kraftwerktools.fr

KRAFTWERK is a **Swiss company** that manufactures high-quality hand tools, workshop carts, and workshop equipment. Since 1979, this family-owned business has been successful in attractive segments such as automotive, agriculture, construction, and industry, as well as hobby craftsmanship.

The company will continue to **develop and produce innovative solutions** to further expand its position in the tool industry.

[MOBILIO-configurator.kraftwerktools.com](https://mobilio-configurator.kraftwerktools.com)

The MOBILIO Workshop System by KRAFTWERK – Your Workshop, Your System.

MOBILIO by KRAFTWERK is the **high-quality workshop solution** for anyone who values functionality, precision, and flexibility – whether in a professional environment or for ambitious private use.

The **modular system** allows you to configure every detail to suit your specific needs: from worktop depth and materials to module combinations and inlays – **everything fits your workflow.**

Plan and visualize your ideal workshop easily using our **3D web configurator** – whether from home or together with your local specialist dealer.

At KRAFTWERK, we focus on **innovative, sustainable products** and strong partnerships. Our goal: to create tools and systems that professionals trust and enjoy using every day.

Experience how MOBILIO transforms your workshop – with precision, efficiency, and individuality.

For Every Need and Taste – The Perfect Equipment

**Maximum flexibility for your workshop - now in elegant black or stylish
stylish gray/anthracite!**

Robust worktops made of beech Multiplex or 430 stainless steel provide a durable work surface. With the MOBILIO DEEP extension, you can create more space for your projects in no time at all. (▶▶ from page 20)

Our range of hooks and accessories ensures perfect organization. (▶▶ from page 34)
Even better: choose from equipped EVA foam tool inserts in various sizes and set up your workshop as required - efficiently and clearly arranged! (▶▶ from page 23)

Whether for hobbyists or professionals – MOBILIO stands for functionality, quality, and design!

NEW

BLACK

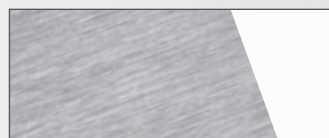

Beech Multiplex

Worktop thickness	35 mm
Worktop depth Standard	463 mm
Worktop depth DEEP	690 mm

Stainless steel 430

Worktop thickness	38 mm
Worktop depth Standard	463 mm

▶▶ from page 22

MOBILIO DEEP – More space, more comfort, more efficiency

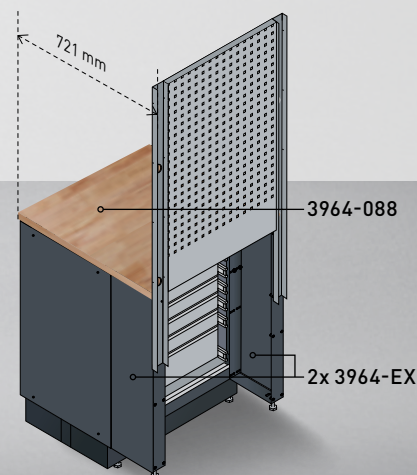

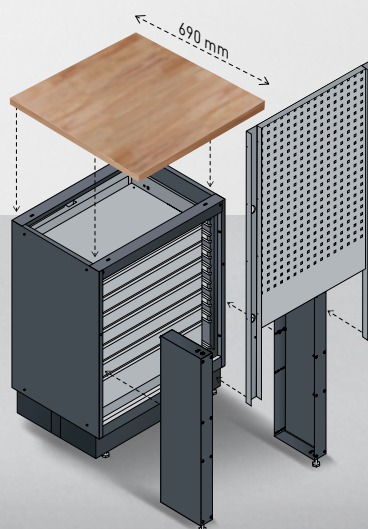

With **MOBILIO DEEP**, you can add a generous work surface to your workshop.

All you need is a deeper beech worktop and the matching extension consoles, which can be easily fitted to the standard base units.

Two connecting frames are required for each furniture element. Only one additional connecting frame is required for each additional element (e.g. 2 elements = 3 connecting frames).

Practical extension kits with all the parts you need for your upgrade can be found from page 20 onwards.

The clever solution for more space - MOBILIO DEEP!

MOBILIO DEEP – flexible installation

If you choose the **MOBILIO DEEP (-EX)** version, you have two options for installing the tall units:

Variant A: The tall units are mounted flush with the perforated wall, allowing the worktop to slightly overhang.

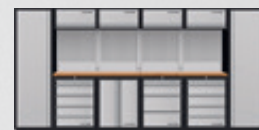

Variant B: The tall units are installed flush with the worktop and base units. However, this creates a small gap between the cabinet and the perforated wall. If you wish to close this gap, simply order item **3964-01.EX** . (see page 21 for more details)

Modular Workshop Storage System

1 | Spacious tall and hinged-door cabinets

Sturdy, lockable tall and hinged-door cabinets, each including four shelves with a load capacity of 40 kg each.

2 | One-Key Solution

Our One-Key solution allows you to retrofit all locks to the same key number, so only one key is needed.

3 | High-quality base cabinets with central locking

Featuring drawers of different heights with ball-bearing slides and full extension.

4 | Worktops

Available in two versions: Beech Multiplex, robust and durable, or corrosion-resistant 430 stainless steel.

5 | Mobile rolling drawer cabinet

Equipped with seven ball-bearing drawers with full extension. Two ergonomic front handles make maneuvering easy for flexible working.

6 | Opening for cable routing

7 | Corner unit

Optimal space utilization with a spacious upper and lower corner cabinet. No space is wasted, and "dead corners" are efficiently used.

8 | Wall cabinets

Equipped with gas struts for effortless opening and closing. Also available with hinged-doors.

9 | Back panels

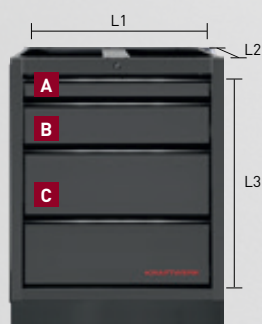

With square perforations for highly visible and easily accessible tool storage. A wide range of tool hooks and holders is available.

10 | Lighting

For optimal illumination of your workspace, we offer flexible LED under-cabinet lights in two sizes. Mounting options: magnet or bracket. Can be connected in series

11 | Sturdy construction

All MOBILIO modules are made from 1.2 mm thick steel sheet. This solid construction ensures stability and durability in daily use.

More workspace for your MOBILIO workshop!

Do you already have MOBILIO workshop equipment and need more space? Discover **MOBILIO DEEP** – the ideal solution for a larger work surface and increased efficiency!

Upgrading is easy: standard base cabinets are fitted with additional black matt powder-coated consoles. A wide worktop is also required, currently available exclusively in durable beech wood.

For effortless expansion, choose from four pre-configured MOBILIO extension kits or a complete set specially designed for corner unit configurations.

The tall units can be mounted flush either at the front or the back. However, when mounted at the back, a gap forms between the unit and the perforated panel. In this case, you can order item **3964-01.EX 1** and attach it to both sides of the unit if required to prevent dust and small parts from getting inside.

MOBILIO worktop extension set for 1 corner unit with corner wall unit

EVA3 SERIES 4903

3 tool inlays from the 4903 series can be accommodated in a MOBILIO drawer. To make optimum use of the available space and to ensure that the tools are stored securely, 2 additional filling elements (art. no.: 4903-00EP) are required. These filling elements ensure that the tool inlays sit stably and without movement in the drawer, which improves the organisation and protection of the tools.
